

my husband and I listen to k-love every day. I understand that there is a proposal in the works that could jeopardize their broadcasting. This would be greatly upsetting to us if we could no longer listen to k-love. k-love provides us with inspiration and hope for our lives every day, and we love listening to it. The music is always positive and uplifting, something that is desperately needed in our culture nowadays. k-love provides a wonderful contrast and offers a much needed alternative to all the other "rock" and "contemporary" music out there in the mainstream. Please do not do anything that would take away this choice for us and many more in the community. Thank you.
